DANIJEL GITANOVIC

FULLSTACK DEVELOPER

SUMMARY

As an ambitious full-stack developer with a strong foundation in React, I am eager to expand my expertise in this field. My academic background and hands-on experience, enriched by my commitment to personal development through various projects, have equipped me with a comprehensive understanding of full-stack technologies. My passion for programming is reflected in my proactive approach to learning and applying new skills, making me a valuable asset to any dynamic and innovative development team.

PERSONAL SKILLS

As a committed computer scientist, I emphasize structured and quality-centric workflows while embracing the exploration of diverse programming techniques. My quick adaptation to new languages, demonstrated by my proficiency in C# during an internship, exemplifies my dedication to continuous learning and innovation within the ever-evolving field of computer science.

WORK EXPERIENCE

2022
10 WEEKS INTERNSHIP IN WATTS A/S

2019 - 2020
HOFOR/AMAGERBAKKE(NOT PROGRAMMING RELATED)

2017 - 2018
HBN-TEKNIK(NOT PROGRAMMING RELATED)

LANGUAGES

- Danish (Native)
- English (Professional)
- Serbian (Professional)

LINKS

PERSONAL SKILLS

- JavaScript & TypeScript: Advanced proficiency in JavaScript, with practical experience in multiple projects. Recently started expanding skills into TypeScript.

- Node.js: Utilized extensively in full-stack projects, primarily for backend development

- C# - Completed a C# course and applied it during my internship, enhancing my practical skills in the language.

- React: Employed in several projects, demonstrating strong proficiency in this library.

- Testing: Experience in Jest for unit and integration testing; proficient in Cypress for End-to-End testing.

- Databases: Skilled in working with both relational and document databases, specifically MySQL and MongoDB.

- Kotlin: Applied in developing Android applications.

- Flutter: Developed multiple cross-platform applications.

- Methodologies: Practical application of Scrum, V-model, and Unified Process in project management.

Projects: My projects, showcasing application of the above skills, are available on GitHub.

SPARE TIME

I spend my free time training Callisthenics, which is a form of strength training. I also play football, which I have done for approx. 15 years. I also spend some of my free time to Game.
