SUMMARY

I'm a motivated full-stack developer with a solid understanding of React and a strong desire to grow in this field. Through my studies and hands-on projects, I've built a well-rounded knowledge of full-stack technologies. My passion for coding drives me to constantly learn and improve, making me a valuable member of any forward-thinking development team.

PERSONAL SKILLS

I focus on creating organized, high-quality work and enjoy trying out different programming techniques. During an internship, I quickly learned C#, showing how committed I am to learning and adapting to new challenges. I'm always looking for new ways to improve and stay up to date in the fast-changing field of computer science.

SPARE TIME

I spend my free time training Callisthenics, which is a form of strength training. I also play football, which I have done for approx. 15 years. I also spend some of my free time to Game.
